

Meeting of the

# Washington State Board of Health

Wednesday 5/14/03 – 9:30 AM to 4:30 PM

AmeriTel Inn

4520 Martin Way East, Olympia, WA 98516

## FINAL Agenda

9:30 a.m.	<b>Call to Order</b>	<i>Linda Lake</i> , WSBOH Chair
	<b>1. Approval of Agenda--Action</b>	
	<b>2. April Minutes--Adoption</b>	
9:35 a.m.	<b>3. Department of Health Update</b>	<i>Maxine Hayes</i> , State Health Officer, Department of Health
9:55 a.m.	<b>4. SBOH Announcements</b>	<i>Don Sloma</i> , WSBOH Executive Director
10:15 a.m.	<b>5. Introduction &amp; Comments</b>	<i>Jeffery Thompson MD</i> , Chief Medical Officer DSHS, Medical Assistance Administration
10:40 a.m.	<b>6. Well-Child Exam Pilot Project: Preliminary Findings and Recommendations</b>	<i>Vickie Ybarra</i> , WSBOH Member <i>Doreen Garcia</i> , WSBOH Staff <i>Gayle Thronson</i> , Office of the Superintendent of Public Instruction (OSPI) Health Services Coordinator
11:00 a.m.	<b>BREAK</b>	
11:10 a.m.	<b>7. Onsite Wastewater Treatment Systems Overview and Rule Development Committee Update</b>	<i>Carl Osaki</i> , WSBOH Member <i>Marianne Seifert</i> , WSBOH Staff <i>Art Starry</i> , Thurston County Public Health & Social Services Department, Environmental Health Director <i>Debbie Riley</i> , Mason County Department of Health Services, Environmental Health Manager <i>Bill Dewey</i> , Taylor Shellfish Farms <i>Reed Tacia</i> , Reed's Construction <i>Maryanne Guichard</i> , Department of Health, Environmental Health & Safety
12:30 a.m.	<b>LUNCH</b>	
2:00 p.m.	<b>8. Urgency to Prevent &amp; Reduce Overweight &amp; Obesity in Children</b>	<i>Vickie Ybarra</i> , WSBOH Member <i>Doreen Garcia</i> , WSBOH Staff <i>Donna Johnson</i> , PhD, Associate Director, Center for Public Health Nutrition, University of Washington School of Public Health and Community Medicine <i>Kyle Unland</i> , Lead Supervisor, Diabetes, Nutrition & Physical Activity, Department of Health <i>Paul Flock</i> , Child Nutrition Supervisor, Olympia School District <i>Amy Belko MD</i> , President and Board Member Thurston Mason Medical Society, WA Chapter of American Academy of Pediatrics
3:00 p.m.	<b>9. Legislative Update</b>	<i>Craig McLaughlin</i> , WSBOH Staff
3:10 p.m.	<b>10. Analysis of Authority to Enter Private Property</b>	<i>Craig McLaughlin</i> , WSBOH Staff
3:30 p.m.	<b>11. Community Forums &amp; Critical Health Services: Humanlinks, Washington Health Foundation, Community Roundtables--Possible Action</b>	<i>Don Sloma</i> , WSBOH Executive Director <i>Julie Davidson</i> , Director of Health Care Initiatives Humanlinks <i>James Whitfield</i> , Washington Health Foundation
3:55 p.m.	<b>12. Possible Board 2003-05 Priorities</b>	<i>Don Sloma</i> , WSBOH Executive Director
4:15 p.m.	<b>13. Public Testimony</b>	
4:30 p.m.	<b>Adjournment</b>	

PLEASE NOTE: Times above are estimates only. The Board reserves the right to alter the order of the agenda. For information regarding testimony, handouts, other questions or for people needing special accommodation, please contact Desiree Day Robinson at the Board office at (360) 236-4110 by May 7, 2003. This meeting site is barrier free. Emergency contact number during the meeting is (360) 701-2398.

# For Your Information . . .

As of: May 1, 2003

## Conferences

Please note: This list is provided primarily for informational purposes. Due to the current state fiscal restraints, Board members, staff and other state employees may not be able to attend these conferences unless they use personal resources.

DATE	NAME	LOCATION & INFORMATION
1. May 9 2003	<b>National Environmental Policy Commission Listening Session</b> <i>Sponsored by: National Environmental Policy Commission</i>	Seattle University Student Center, Seattle, Washington <i>For more information visit their Website at <a href="http://pico.library.musc.edu/np/nepc02.html">http://pico.library.musc.edu/np/nepc02.html</a> and/or Contact Ragan DuBose at (843) 792-5530 or <a href="mailto:duboser@musc.edu">duboser@musc.edu</a></i>
2. May 12-16 2003	<b>26th National Rural Health Association (NRHA) Annual Conference &amp; 9th Annual Rural Minority Health Conference</b> <i>Sponsored by: National Rural Health Association, Grand</i>	America Hotel, Salt Lake City, Utah <i>For more information, call (800) 325-4000 or visit <a href="http://www.nrharural.org/pagefile/NRHAconf.htm">http://www.nrharural.org/pagefile/NRHAconf.htm</a></i>
3. May 14-16 2003	<b>“Using Evidence to Guide Health Policy Decisions in Times of Fiscal Constraint” – A Workshop for State and Local Health Care Policymakers</b> <i>Sponsored by: Agency for Healthcare Research and Quality</i>	San Francisco, California <i>For more information, call (202) 292-6718</i>
4. May 18-21 2003	<b>2nd UCLA Conference on Public Health and Disasters</b> <i>Sponsored by: Center for Public Health and Disasters</i>	Torrance Marriott Hotel, Torrance, California <i>For more information, call (310) 316-3636 or visit <a href="http://www.ph.ucla.edu/cphdr/conference.html">http://www.ph.ucla.edu/cphdr/conference.html</a></i>
5. June 2-4 2003	<b>Protecting the Sources of the Nation’s Drinking Water: Opportunities for Action</b> <i>Sponsored by: The Environmental Protection Agency</i>	Hotel Washington, Washington DC <i>For more information call 1-800-426-4791 or visit <a href="http://www.epa.gov/safewater/protect/swpconf.html">http://www.epa.gov/safewater/protect/swpconf.html</a></i>
6. June 2-4 2003	<b>2nd Annual Telehealth Leadership Conference: An Intensive Look at Key Health Issues in Telehealth</b> <i>Sponsored by: Washington State University</i>	Wyndam Washington DC Hotel, Washington DC <i>For more information, call (573) 884-7958 or visit <a href="http://www.muhealth.org/~cme/telehealth">www.muhealth.org/~cme/telehealth</a></i>
7. June 3 2003	<b>Creating Healthy, Active Communities</b> <i>Sponsored by: Washington State Department of Health, University of Washington, Center for Public Health Nutrition</i>	Hilton Conference, Seattle, Washington <i>For more information call (360) 943-3642 or visit <a href="http://depts.washington.edu/uwcphn/">http://depts.washington.edu/uwcphn/</a></i>
8. June 4 2003	<b>Washington Coalition Annual Meeting: “Transforming Communities to Encourage Physical Activity”</b> <i>Sponsored by: Washington Coalition for Promoting Physical Activity</i>	Group Health Conference Center, Tukwila, Washington <i>For more information call (206) 287-4604 or visit <a href="http://www.beactive.org/register.html">http://www.beactive.org/register.html</a></i>
9. June 6 2003	<b>Quality of Life for Our Elders Conference: Clinical Care for Successful Aging</b> <i>Sponsored by: Washington State University</i>	Red Lion Hotel at the Park, Spokane, Washington <i>For more information, call (800) 279-0705 or visit <a href="http://www.spokane.wsu.edu/calendar/viewevent.asp?id=237">http://www.spokane.wsu.edu/ calendar/viewevent.asp?id=237</a></i>
10. June 18-21 2003	<b>13<sup>th</sup> Annual Social Marketing in Public Health</b> <i>Sponsored by: Department of Community and Family Health</i>	Sheraton Sand Key Resort, Clearwater Beach, Florida <i>For more information, call (727) 595-1611 or visit <a href="http://www.publichealth.usf.edu/conted">www.publichealth.usf.edu/conted</a></i>

11. **June 20-23 2003**      **NCC Environmental Justice Conference: “Enough for All: Sustainable Living in a Global World”**  
Sponsored by: *The National Council of Churches' Eco-Justice Working Group, Earth Ministry, Seattle University's School of Theology and Ministry, and the Washington Association of Churches.*  
Seattle, Washington  
For more information, call (206) 616-7566 or visit <http://www.webofcreation.org/ncc/conference>
  
12. **July 16-18 2003**      **9th Annual International Symposium**  
Sponsored by: *The Picker Institute*  
The Westin Copley Place, Boston, Massachusetts  
For more information, call (402) 475-2525 or visit [www.pickersymposium.org](http://www.pickersymposium.org)
  
13. **July 16-18 2003**      **National Prevention Symposium**  
Sponsored by: *Comprehensive Health Education Foundation (CHEF)*  
Hotel Nikko, San Francisco, California  
For more information, call (800) 323-2433 or visit [www.cheff.org/programs/national.php](http://www.cheff.org/programs/national.php)
  
14. **August 4-6 2003**      **Disease Management Conference & Expo**  
Sponsored by: *Strategic Research Institute*  
World Trade Center & Seaport Hotel, Boston, Massachusetts  
For more information, call (888) 666-8514 or visit [www.srinstitute.com/dmcex](http://www.srinstitute.com/dmcex)
  
15. **August 4-8 2003**      **Public Health Preparedness – Tools for the Frontline**  
Sponsored by: *The Summer Institute For Public Health Practice*  
University of Washington, Seattle, Washington  
For more information, call (206) 685-1130 or visit <http://nwcphp.org/niphp/>
  
16. **September 16-19 2003**      **Food, Physical Activity and Body Weight**  
Sponsored by: *US Department of Health and Human Services*  
Hilton Portland & Executive Tower, Portland, Oregon  
For more information, call (202) 777-2479 or visit [www.ohsu.edu/weight/calltoaction](http://www.ohsu.edu/weight/calltoaction)
  
17. **October 12-15 2003**      **5<sup>th</sup> Annual Disease Management Leadership Forum**  
Sponsored by: *Disease Management Association of America*  
Hyatt Regency, Chicago, Illinois  
For more information, visit [www.DMAA.org](http://www.DMAA.org)
  
18. **November 16-19 2003**      **131st Annual Meeting & Exposition**  
Sponsored by: *American Public Health Association (APHA)*  
Moscone Convention Center, San Francisco, California  
For more information, call (206) 615-2024 or visit [www.apha.org](http://www.apha.org)
  
19. **April 30 thru July 1 2003**      **Washington Health Foundation: Community RoundTables 2003**  
*The Washington Health Foundation and a statewide partnership of 10 organizations are hosting a series of 40 community meetings throughout Washington during the first six months of 2003. It is your chance to offer your priorities and concerns for health and health care in this state.*  
For more updated information on locations and times, please visit [http://www.whf.org/pro\\_assuring\\_transform\\_sche.asp](http://www.whf.org/pro_assuring_transform_sche.asp)

## Correspondence to the Board

### 1. Linda Lake, Chair, Washington State Board of Health

*Source: Island County Board of Commissioners*

Commission strongly suggests that the Board give careful review and consideration to the economic impact of lowering the maximum contaminant level for Group B public water systems prior to making our decision.

### 2. Washington State Board of Health Members

*Source: Clark County Board of Commissioners*

The Commission thanks the Board for allowing members to comment on the critical need for stable public health services. They state, “We would greatly appreciate anything you may do to help validate and sustain the value of these essential services.”

### 3. Washington State Board of Health Members

*Source: Whatcom County Council*

The Council would like to thank the Board for the invitation to the April 9, 2003 meeting, but due to other commitments, members were unable to attend. It comments, “The state must establish a stable and secure funding source for public health. The counties of the state form an interconnected web to ensure public safety to the citizens of the state. Any weakness in that web will threaten the health and welfare of all. It is imperative that the state officials recognize the need to protect the public’s health by funding local public health.”

#### **4. Governor’s Directive No. 03-01**

*Source: Gary Locke, Governor, Washington State*

Governor Locke directs each state agency to develop and be prepared to implement amended emergency management plans to respond to US Department of Homeland Security alerts.

#### **5. The Honorable Gary Locke, Governor of Washington**

*Source: Mary Selecky, Secretary, Washington State Department of Health*

Secretary Selecky forwarded the nomination for the Snohomish County Human Services Division of Alcohol and Other Drugs to be the recipient of the Warren Featherstone Reid Award for Excellence in Health Care.

#### **6. Don Sloma, Executive Director, Washington State Board of Health**

*Source: Mr. David Dow, Edgewood, Washington*

Mr. Dow is concerned about the annual testing of his sprinkler system and the effect it has on the ground water. He is inquiring whether it is a state requirement and whether it is enforced statewide.

### **Correspondence from the Board**

#### **1. The Honorable David Lopeman, Squaxin Island Tribal Chairman**

*Source: Linda Lake, Chair, Washington State Board of Health*

Letter thanking Mr. Lopeman for allowing the Board to hold its May 14 meeting at the Squaxin Island Tribal Center, and inviting members of the Squaxin Island Tribal Council to the Board meeting.

(Note: The location of the May 14<sup>th</sup> Washington State Board of Health meeting has been changed to the AmeriTel Inn in Olympia.)

#### **2. The Honorable Gary Locke, Governor of Washington**

*Source: Linda Lake, Chair, Washington State Board of Health*

Request to the Governor to sign House Bill 1318, relating to referencing the United States Food and Drug Administration Food Code in RCW 43.20.

#### **3. Dr. Terry Bergeson, State Superintendent of Public Instruction**

*Source: Linda Lake, Chair, Washington State Board of Health and Vicki Ybarra, Member, Washington State Board of Health*

The State Board of Health has made protecting and improving the health and well-being of children one of its top priorities. We find that one of the most important places to protect and improve the health of children is in the school setting.

#### **4. Island County Board of Commissioners**

*Source: Linda Lake, Chair, Washington State Board of Health*

Chair Lake expresses thanks for the April 14, 2003 letter regarding arsenic maximum contaminant levels for Group B Public Water Systems, WAC 246-291.

#### **5. Lewis County Board of Commissioners**

*Source: Linda Lake, Chair, Washington State Board of Health*

Letter expressing thanks for allowing Chair Lake and Executive Director Sloma to participate in their local board meeting.

**General Interest****1. Quality of Care for Underserved Populations Field Reports**

*Source: The Commonwealth Fund*

As the United States becomes a more racially and ethnically diverse nation, health care systems and providers need to respond to patients' varied perspectives, values, and behaviors about health and well-being. Failure to understand and manage social and cultural differences may have significant health consequences for minority groups in particular.

**For more information, visit** [http://www.cmf.org/programs/minority/betancourt\\_culturalcompetence\\_576.pdf](http://www.cmf.org/programs/minority/betancourt_culturalcompetence_576.pdf)

**2. Pierce County Health Services Careers Council Annual Report**

*Source: The Tacoma-Pierce County Workforce Development Council*

The Pierce County Health Services Careers Council has collaborated in regional and statewide efforts to resolve the healthcare worker shortage, and remains committed to this systematic approach.

**For more information, contact Colin Conant at (253) 594-7972**

**3. Tackling HIV Policy Issues: A Process and Next Steps**

*Source: Washington State Department of Health*

In 2000, the AIDSNET Council appointed a workgroup to review and refresh the AIDS Omnibus Law. They now want feedback from the public on policy concerns.

**For more information, contact John Peppert at** [john.peppert@doh.wa.gov](mailto:john.peppert@doh.wa.gov)

**4. Reverse Washington State's Health Care Inequalities**

*Source: Washington Citizen Action, March 2003*

When it comes to access to health care, not all things are equal. The report documents the challenges that people of color confront in accessing health coverage and the disproportionate impact of health care budget cuts on people of color.

**For more information, contact Tom Vasquez at (206) 389-0050 ext. 108**

**5. Asthma Awareness Month and World Asthma Day, May 6, 2003**

*Source: Environmental Protection Agency*

May 6, 2003, is World Asthma Day, a day devoted to increasing the public's awareness of the indoor and outdoor pollutants that trigger asthma problems. In the U.S. alone, approximately 15 million individuals, including 4.8 million children, suffer from asthma. In order to increase people's knowledge of the asthma epidemic, the World Health Organization and the National Heart, Lung, and Blood Institute together with the Environmental Protection Agency and other organizations are sponsoring asthma educational events in schools, libraries, and communities around the world on May 6, as well as throughout the month of May, which is Asthma Awareness Month.

**For more information, visit** [www.epa.gov/asthma](http://www.epa.gov/asthma).

**6. Maintaining Medicaid and SCHIP During Difficult Budget Conditions**

*Source: American Academy of Pediatrics*

Budget shortfalls have plagued states for the past two fiscal years and have given no indication of relenting. State Medicaid and State Children's Health Insurance (SCHIP) are bracing for a difficult year.

**For more information, visit** [www.aap.org](http://www.aap.org)

**7. Poll Shows Washington Residents Believe Too Little is Spent on Protecting Health With Disease Prevention Research**

*Source: University Of Washington*

A poll released April 14, indicates that nearly three-quarters of Washington state residents believe too little is spent on prevention research and that current spending should be more than doubled. Eighty-four percent would be more likely to vote for a candidate for a public office if he or she supported increased funding for research to find cures for, and to prevent, disease.

**For more information, contact Walter Neary at (206) 685-3841**

## 8. AHA Web Site Targets Racial and Ethnic Disparities

*Source: American Hospital Association*

The AHA added a new section to its Web site addressing how to eliminate racial and ethnic disparities in health care. The site notes that a melding of different racial and ethnic groups in America has created a rich cultural texture, but also has brought challenges to the health care community, with implications for every aspect of health care—workforce, management, governance and, most importantly, the patients we serve.

**For more information, visit** [www.aha.org](http://www.aha.org)

### 2. Advocates Eye Funding Fix for Public Health

*Source: Julie McCormick, Bremerton Sun, April 10, 2003*

**Q:** What are bio-T, SARS and West Nile?

**A:** Bioterrorism threat, severe acute respiratory syndrome and the mosquito-borne West Nile virus. Three costly, emerging public health demands arrived unannounced and stretched already-stressed budgets right in the middle of recession and an expanding state deficit

**For more information, visit** [www.thesunlink.com/redesign/2003-04-10/local/119026.shtml](http://www.thesunlink.com/redesign/2003-04-10/local/119026.shtml)

### 3. American Journal of Preventive Medicine Supplement

*Source: American College of Preventive Medicine*

The Task Force on Community Preventive Services supported by staff at the Centers for Disease Control and Prevention (CDC), describes a public health framework for thinking about how social factors work together to affect health. They provide a list of potential interventions to address these critical social determinants of health. They provide methods for examining the effectiveness of interventions. And they provide systematically derived evidence of the effectiveness of selected intervention strategies in the areas of early childhood education, housing, and culturally competent health care. On the basis of the scientific evidence of effectiveness of the interventions, the Task Force makes recommendations about whether these interventions should be implemented. These intervention and research recommendations are an addition to the Task Force's body of work, the *Guide to Community Prevention Services*.

#### **5. Can HIV Exposure Regimen Work for Outpatients?**

*Source: Amendnews.com, May 12, 2003*

Seven years after the establishment of guidelines for HIV post exposure prophylaxis in medical settings, physicians are starting to receive some guidance for use of the regimen in the broader community. Rhode Island became the first state to release comprehensive guidelines last September.

**For more information, visit [http://www.ama-assn.org/sci-pubs/amnews/pick\\_03/hlsb0512.htm](http://www.ama-assn.org/sci-pubs/amnews/pick_03/hlsb0512.htm)**

#### **6. Blood Lead Concentration and Delayed Puberty in Girls**

*Source: New England Journal of Medicine, April 17, 2003 Volume 348(16)*

We analyzed the relations between blood lead concentration and pubertal development among girls (defined as females 8 to 18 years of age) who were enrolled in a cross-sectional study in which race was self-reported or proxy reported: 600 were non-Hispanic white, 805 were non-Hispanic African-American, and 781 were Mexican-American girls. Puberty was measured on the basis of the age at menarche and Tanner stage for pubic-hair and breast development.

#### **8. Community Report Seattle Washington, Economic Downturn and State Budget Woes Overshadow Seattle Health Care Market**

*Source: Center for Studying Health System Change*

Seattle's current health care market stands in stark contrast to two years ago when Washington's generous public insurance programs were expanding and employers offered rich benefits to attract and retain workers in a tight labor market.

**For more information, visit [www.hschange.org](http://www.hschange.org)**

#### **9. Community Report**

*Source: Center for Studying Health System Change*

Rapidly rising health care costs continue to permeate the northern New Jersey health care market, driven largely by escalating hospital payment rates, increasing utilization of health care services and rising pharmaceutical costs. Confounding these problems is a new medical malpractice insurance crisis that has prompted physicians to seek higher payment rates from health plans to offset financial pressure from rising malpractice premiums.

**For more information, visit [www.hschange.org](http://www.hschange.org)**

#### **10. Doctors Add Retainer Fees, Test Loyalty of Patients**

*Source: Carol Ostrom, Seattle Times, May 2, 2003*

When he opened the letter from his doctor, Stuart Roos was shocked. Unless Roos paid \$25 a month, the letter said, his Polyclinic doctor, Marc Cordova, wouldn't continue his care.

**For more information, visit [http://seattletimes.nwsources.com/html/healthscience/134687783\\_doctors02m.html](http://seattletimes.nwsources.com/html/healthscience/134687783_doctors02m.html)**

#### **11. Exposure to Lead in Children: How Low is Low Enough?**

*Source: New England Journal of Medicine, April 17, 2003 Volume 348(16)*

Encephalopathy in childhood due to lead poisoning was described more than 100 years ago, and cognitive sequelae after recovery were reported in 1943. During the past three decades, epidemiologic studies have demonstrated inverse associations between blood lead concentrations and children's IQs at successively lower lead concentrations.

**For more information, contact the Board office at (360) 236-4110**

## **12. Fast Food Sellers Under Fire for Helping Supersize People**

*Source: Victoria Stagg Elliott, AmNews.com, April 21, 2003*

John F. Banzhaf III, a professor of public interest law at George Washington University Law School in Washington, D.C., is best known for using lawsuits to make it harder to smoke, whether seeking bans on tobacco advertising on radio and television or tobacco use during most commercial air flights. Last year, he turned his attention to a new public health crusade: the factors making us fat. He is an adviser to the lawyers bringing several cases against fast-food companies for making their clients overweight and unhealthy.

**For more information, contact Brigitte Settles Scott at [http://www.ama-assn.org/sci-pubs/amnews/pick\\_03/hlsc0421.htm](http://www.ama-assn.org/sci-pubs/amnews/pick_03/hlsc0421.htm)**

## **13. Governor Locke Awards Grant for Shellfish Protection**

*Source: Governor's Communication office*

OLYMPIA - April 29, 2003 - Gov. Gary Locke has awarded a grant to the Pacific County Board of Health creating a low-interest loan program to fund shellfish protection. The Puget Sound Action Team awarded the \$60,750 grant to the board on behalf of the governor.

## **14. Laws Not Up To SARS Epidemic**

*Source: Ceci Connolly, Washington Post, April 26, 2003*

With the spread of the highly contagious SARS virus from Asia to Toronto, federal officials here say this nation's patchwork of public health laws, many 100 years old and possibly unconstitutional, has left the United States ill-prepared to handle a major epidemic. Though there are just 41 probable cases of severe acute respiratory syndrome (SARS) in the United States, experiences in Beijing and Toronto illustrate the urgent need for clear laws that protect public health and personal liberties, advocates of comprehensive legal change say.

## **15. Health Chief Is a Doctor Comfortable With Orders**

*Source: Richard Perez-Pena, New York Times, April 30, 2003*

In early April, officials at a hospital in New York City told the city's Department of Health and Mental Hygiene that they were treating a foreign tourist with SARS symptoms who was refusing to remain isolated for 10 days to avoid spreading the disease. Department officials, in turn, immediately notified Commissioner Thomas R. Frieden. It was, Dr. Frieden acknowledges, a borderline case. The man's symptoms were not severe, and he had spent just a few hours in Hong Kong between flights. Even so, after a round of meetings, Dr. Frieden ordered the man detained in the hospital against his will. Department lawyers prepared to go to court in case the man contested the order, which he did not. A guard was posted outside his room.

**22. Overweight, Obesity And Mortality From Cancer in a Prospectively Studied Cohort of U.S. Adults**

*Source: The New England Journal of Medicine, Volume 348(17)*

In a prospectively studied population of more than 900,000 U.S. adults (404,576 men and 495,477 women) who were free of cancer at enrollment in 1982, there were 57,145 deaths from cancer during 16 years of follow-up. They examined the relation in men and women between the body-mass index in 1982 and the risk of death from all cancers and from cancers at individual sites, while controlling for other risk factors in multivariate proportional-hazards models.

**28. State Health Notes**

*Source: National Conference of State Legislatures, April 10, 2003*

Cover Story – The issue of medical malpractice liability is back on the front burner but just how serious the problem is and what legislators can do to fix it are matters of serious debate. Two Missouri policy makers – the chief of the Insurance Department and a key House committee chairman – shed light on the debates complexities.

Highlights – Prescription drug safety regs... \$3 million grant for HI Rx drug program... CT suit over “inflated” drug costs... CT SCHIP cutbacks... Progress report on SCHIP... NM emergency contraception bill... Emergency preparedness report... MI views on obesity... Impaired driver laws in VA... KY problem gambling resolution... Survey on in home care... Ten state report on family caregiver needs.

Tracking Trends – With childhood obesity reaching epidemic proportions, lawmakers are searching for solutions. Among them: promote physical activity education.

FYI – Unintentional injuries are the top cause of death for youth between ages 1 and 21, and gun violence is a major factor. In Philadelphia, kids in the Camera Club are being urged to shoot – pictures, not firearms.

**For more information, contact NCSL at (303) 830-2200.**

**29. State Health Notes**

*Source: National Conference of State Legislatures, April 24, 2003*

Cover Story – America’s long-term care system has long had an “institutional bias,” despite the public’s preference for care at home. To meet the demand and produce savings for Medicaid in the bargain, states are experimenting with “consumer-directed care.”

Focus On – Months after the 9-11 terrorist attacks, the psychological stress lingers. Sketches of programs trying to address the mental health needs of children affected by the violence.

Highlights – OK emergency Medicaid funds... Medicare Rx benefit savings... KY any willing provider law ruling... Physician income report... Change in smallpox rules... NY smoking ban... MT smoking ban study... Back pain study... MI Rx preferred drug list... MD medical marijuana law... Blueprint for the homeless.

Tracking Trends – To gain control over the growing part of their Medicaid budgets, more and more states are using preferred prescription drug lists.

FYI – The “Seamless Summer Food Waiver” issued by USDA in 2001, encourages school lunch sponsors to keep providing children with meals after school’s out for the year.

**For more information, contact NCSL at (303) 830-2200.**

### **30. State Health Notes**

*Source: National Conference of State Legislatures, May 5, 2003*

Cover Story – New York Governor George Pataki’s budget proposal looks to close an \$11.5 billion budget gap without raising taxes. With Medicaid high on the “hit lists” legislators are trying to find money to protect patient care and keep peace with providers.

Highlights – CO immigrant benefits... MN abortion waiting period... MI & RI use new federal rule to provide services to pregnant women.

FYI – As part of Florida Governor Jeb Bush’s Mentoring Initiative, a group of Medicaid workers in the Tampa area is devoting time to help at-risk kids.

#### **Public Health News**

Feature Story – Faced with massive deficits, states may have to think in new ways about the financing and delivery of health and human services. That will mean moving from the ‘silo mentality’ of categorical funding toward integration of funding streams, programs.

Health Talk – NCSL President and Oklahoma Senator Angela Monson talks about ways to make the health and human services system more family friendly.

Vital Signs – A look at five strategies for state and local governments to use to fund child and family initiatives.

**For more information, contact NCSL at (303) 830-2200.**

### **31. Students in a Fog**

*Source: Richard Rothstein, New York Times, April 25, 2003*

Federal law now demands that schools close the achievement gap between middle-class children and those from low-income or minority families. But all the money, teacher education and standardized tests in the world aren't going to help if students are at home sick or falling asleep in class.

### **33. Universal Health care in California Carries a Hefty Price Tag**

*Source: Amednews.com, May 12, 2003*

California officials, searching for ways to cover millions of medically uninsured residents while wrestling with a state budget crisis, received an estimate in April of how much one approach to universal care would cost: \$7.8 billion a year. The plan, proposed last year by Blue Shield of California chief executive Bruce Bodaken, would be paid for by businesses, the state government and individuals, a study said, with additional financing from hikes in the state sales tax or income tax.

**Local Board of Health Meeting Minutes****1. Adams County Local Board of Health**

*Source: Meeting Minutes for March 17, 2003 in Othello, Washington*

Meeting Contents:

- Warrants were distributed for signature
- Chairman Rudy Plager updated the board on the proposed legislation for health district/department funding from property taxes
- The environmental fee schedule was distributed for review to establish the \$500 cap designations.
- Chairman Plager led the continuing discussion of pros and cons of being either a health district or a health department.
- Chairman Plager distributed the new application for soil certification.

**2. Jefferson County Local Board of Health**

*Source: Meeting Minutes for April 17, 2003*

## Meeting Contents:

**Community Health Assessment Update**

- Jefferson County's population is significantly older than that of Washington State
- Age composition of places within the County are different
- Poverty Rates in Jefferson County in 1999 were generally higher than in the state
- The universe of people in poverty consists of three segments
  1. Children ages 0-17
  2. People age 18-64
  3. People age 65+
- Poverty rates among children are higher in Jefferson county than in Washington State
- Jefferson County mothers are significantly more likely to be unmarried
- Adults in Jefferson County households that included children younger than 18 reported higher rates of health risk behaviors than did adults in households that did not have children
- Poverty rates are higher among people age 18-34
- People age 18-34 have lower rates of health care access
- Poverty rates in Jefferson County among people 65-74 are lower than they are in the state
- Health care access indicators are better among people age 65+ than the County average
- Poverty rates in Jefferson County probably underestimate need
- Disability rates for County residents (male and female) age 65-74 and men 75+ are lower than they are in the state.
